RE: City of Coldwater Police Grant Proposal

To: Concerned Parties

The Tate County Economic Development Foundation proudly endorses the efforts of the Town of Coldwater to improve the effectiveness of the Coldwater Police by upgrading technology available to the police department. The proposed project is to move the Town of Coldwater Police Department from the current outdated technology (pen and paper) in their mobile cruisers to electronic devices. These devices (radios, laptops, license dipper, ticket printers, etc.) along with required software will assist in completing citations, crime reporting and court case management. The ADSI software provides electronic record management which collects data for inputting into National Incident-Based Reporting System (NIBRS)

As the lead economic and community development, and Chamber of Commerce organization we are involved with helping our communities stay safe and livable, and effective and efficient policing is important to that mission. This grant will help improve the Town of Coldwater and all of Tate County. Please feel free to contact me for any questions.

Sincerely,

J. Britt Herrin, EDFP, PCED
